

# CHANGE YOUR LIFE STORY WITH EFT.

Sunday June 20th 11am to 4pm

Using EFT, Imagination and The Power of Thought on this workshop we will use EFT (tapping) to release the limiting beliefs and old outdated ideas and patterns that restrict us from reaching our true potential.

We all have a story we tell ourselves about our lives and parts of that story no longer work for us.

## LEARN HOW TO TELL A DIFFERENT STORY

Open up to the power within you to change the old story and replace it with one that fulfills your dreams, desires and wants.

Cost €80.0

## Intuitive Development Workshops

with Fergus O'Hanlon

Saturday 8th & Sunday 9th May 2010

- Hunting Brook Gardens, nr Blessington, Co Wicklow.
- 120 euro (lunches and refreshments included)
- Deposit of 30 euro is required in advance (non-refundable)

Join us for a relaxing weekend in the good company of like minded souls at the beautiful Hunting Brook Gardens. There is a very tangible mystical and energetic quality that oozes from every tree, plant and flower that grows there. It is the perfect venue for a personal journey in spiritual awareness and development, as we reconnect with our inner self to hear those intuitive answers that lie within.

We will be practising meditation, intuition, mediumship, healing, spiritual and self awareness. Connecting to your higher knowing, your personal guide, to help you understand why your life has got to where its got and how you can begin to heal inwardly and make the changes in your thought patterns to move forward in a new, more positive direction.

Fergus O'Hanlon is a medium, spiritual teacher and inspirational speaker who talks candidly about his own personal growth and experiences. Our experience of people who attend his workshops is that they experience a conscious "shift" in the awareness of their lives, their jobs, their relationships and their well-being.

What are you going to do with the rest of your life? You do know the answer, you just haven't heard it yet.
